EXAMINER'S AMENDMENT ✓

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Slattery, no. 28,380 on 10 June 2005. The examiner proposed the following amendments to put the claims in better condition for allowance. The examiner proposed canceling claim 8 because it was a substantial duplicate of claim 1. The preamble, which was not required to give life and breadth to the meaning of the claim, was the only difference between claims 1 and 8.

The application has been amended as follows:

In the claims:

Claim 1, line 7: --of-- has been inserted between "sound-scale" and "the".

Claim 1, line 12: "receiving" has been replaced by --the sound generating controller receives--.

Claim 8 has been cancelled.

2. The following is an examiner's statement of reasons for allowance: ✓

Regarding claim 1, the prior art of record does not teach or render obvious a sound-scale generating device that superposes at least one of the harmonic-sound forming sounds able to form a harmonic-sound including the first scale-forming-sound when the sound generating controller makes the sound generator generate a second scale-forming-sound of a dissonant interval and/or imperfect consonant interval with respect to the basic sound.

Art Unit: 2854

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
